The Press Excursion.

To call Toronto the Queen City
of the West sounds to our ears a
misnomer. The Queen City it is
but of the west—well hardly.
That term is a relic of the time
when Ontario was Canada West.
Possessing as it does a population
of over 200,000 the legislative build-
ings of Ontario, educational institu-
tions of all denominations, an
abundance of beautiful churches,
innumerable manufacturing inter-
ests, well-paved streets, a street
car service equal to any on the
continent and numerous parks and
summer resorts by land and water,
it is a city of which every Canadian
has a right to feel proud.

Coming from a land suffering
from drouth our party is to be ex-
cused for having an unquenchable
thirst and it is small wonder that
these found O'Keefe's celebrated
brewery of peculiar interest. The
match-box and cork-stew souvenirs
presented to each gentleman will
furnish a pleasant reminder of a
visit that might otherwise leave
but a vague memory.

Thursday, June 7, 2.30 p.m.—
Passage for the western editorial
party had been secured on the mag-
nificent R. & O. Navigation Com-
pany's steamer, Toronto, and the
trip to Montreal was looked for-
ward to with deep interest. THE
PROGRESS scribe and his wife joined
the excursionists at this point and he
cannot sufficiently express his ap-
preciation of the hearty welcome
tendered to his bride and himself
by the whole party.

The voyage down Lake Ontario
and among the Thousand Islands
was most enjoyable, but owing to an
accident to the boat intended to
carry us through the rapids we were
forced to take train at Pres-
cott. The Navigation Company
deserve credit for their efforts put
forth for our transportation. Dinner
was served at the landing hos-
tel at the company's expense and
cars were furnished to carry us
to Montreal, where, dusty and
warm we arrived about 6 p.m.,
Friday, June 8.

At thought of weariness was
here banished by the cordial wel-
come tendered by President Gor-
donsmith, members and friends of
the Quebec Press Association. No
effort was spared to make us enjoy
our visit. Though we remained in
the city at this time but a few
hours cars were chartered and a
view of the city by electric and
gas light was obtained. After the
refreshments were served, and the
party hurried to their cars and
were soon speeding onward by the
Intercolonial to the historic city of
Quebec.

Levis was reached at an early
hour and crossing the river by
ferry we were received with hearty
handshakes and good wishes by
officers and members of the Que-
bec Press Association and repre-
sentatives of the local press.

Special cars were waiting to con-
vey us to our headquarters, Chateau
Frontenac, probably the finest
hotel in Canada.

We cannot do better than quote
from the Daily Telegraph of Que-
bec an account of the programme
provided.

"After partaking of breakfast the
party embarked on street cars,
which were in readiness for them,
and were driven round the city to
the different points of interest, a
halt being made at the Plains, and
the historical grounds explained to
the visitors.

Continuing the party was driven
to the Parliament Building, where
at 11 a.m. they were introduced
individually to his own private
apartments to His Honor Lieut.
Governor Jettie, who welcomed them
most cordially.

The journalists were then con-
ducted through the spacious build-
ing, and were received in the hall
of the Legislative Council by the
speaker of the Assembly, Hon.
Jules Tessier, and Hon. Mr. Mar-
chand, while the ladies were wel-
comed by Mrs. Tessier.

At half-past eleven o'clock a pro-
menade on the Cove Fields, via the

new promenade around the Citadel
and the Dufferin Terrace was par-
ticipated in, and after luncheon
had been taken the principal event
of the day came off at two o'clock,
which was the excursion around
the port of Quebec, visiting the
proposed site of the Quebec bridge
at the Chaudiere, the Louise Em-
bankments, the new large elevator
in construction for the Quebec
Northern Railway and the Parry
Sound road, then across the river
going to the dry dock at St. Joseph,
the Island of Orleans and the
Montmorency Falls, situated on
the north channel of the Saint
Lawrence.

The immense steamer Rathlin
Head now completing cargo in the
channel was also visited on the
kind invitation of Messrs. H. & M.
Kennedy. The handsome steamer
Druid, on which the trip was made,
was very prettily decorated for the
occasion and refreshments were
served on board.

Although all were indefatigable
in their efforts to give us a good
time we cannot refrain from men-
tioning the zealous president L. J.
Domers, to whose untiring energies
all the excursionists are particularly
indebted for a happy visit. Our
own personal thanks are especially
due to E. E. Cinq-Mars, corres-
pondent of La Presse, who showed us
many courtesies.

Qu'Appelle Dairy Station.

The report of Qu'Appelle Cream-
ery for 1899 has been published by
Jas. W. Robertson, Commissioner
of Agriculture and Dairying for
Canada. It is too long for publi-
cation in THE PROGRESS in total,
but we give the following summary
thereof.

Total number of pounds of butter
made, 16,564; total receipts, \$3,318.45. Average price per pound,
20.22 cents. Charge for milk, 4
cents per pound, \$672.44. There
were in all 10 patrons and to the
were advanced by checks \$1,100
and a balance paid in January last
of \$801.57. The cost of hauling
was \$117.99. The net value of
butter after deducting cost of mak-
ing was 16.22 cents per pound.
The expenditure at creamery was
\$1,086.61.

Any who desire to examine
report in detail may do so at this
office.

How to Fight Drouth.

Going west to Indian Head we
found Angus Mackay working on
the very same lines for wheat
growing. He had very early found
that a well worked sugar-belt
gave more return than an ordi-
nary fall plow and in two
years, and he has been working and
teaching on the same lines ever
since. Such a system is more
effective on virgin soil than after
10 or 20 years of work. He worked
most of the vegetable matter out of
the soil, but still as it goes,
good work ensures a fine porous
mould that stores much moisture
and makes a crop grow in a very
dry season. Mr. Mackay's doctrine
is, or was up till very recently, that
the probability of four out of five
seasons in the west is for a deficient
rainfall, and therefore all our plans
of working should be laid out in
anticipation of the deficiency.

During the last dozen years The
Nor' West Farmer, in dealing with
cultivation questions, has tried to
keep these principles before the
minds of its numerous readers, not
merely for the sake of consistency,
but because of the continual crop-
ping up of fresh evidence confirm-
ing these opinions, while nothing
to the contrary has ever been suc-
cessfully advanced.—Nor' West
Farmer.

I have just received a fresh stock of
Figs, Peaches and Watermelons.
Try my

SEYMOUR IS IN PEKIN.

THE ADMIRAL'S GALLANT RESCUE OF THE FOREIGN LEGATIONS.

The Missionaries were Carried Away by the Chinese General and Received Protection.

London, June 21.—The news from Shanghai today is regarded in official circles as distinctly cheering. After the grim reports current early this morning the dispatch of the Associated Press announcing the arrival of the relief expedition commanded by Admiral Seymour at Peking, and the safety of the legations, which later was confirmed by a dispatch from Shanghai, published in a second edition of the London Times, announcing that Seymour's force arrived at the Chinese capital June 17, presages, it is hoped, a general brightening of the situation. No details have yet been received of the casualties or of the conditions of affairs at Peking, but well informed people express the opinion that the summoning of Li Hung Chang to the capital forebodes the early submission of the dowager empress to the dictates of the powers.

London, June 21.—Shanghai reports originating from Chinese sources, and credited by the local foreign officials, state that the legations at Peking were safe on Sunday, June 17, Admiral Seymour with a relieving column is also reported to have reached Peking.

Washington, June 21.—Mr. Wu, the Chinese minister here, has with general satisfaction the report that comes from Canton that Li Hung Chang has been ordered to Peking. He thinks it augurs well for the future, and that his presence will exert a beneficial effect in the treatment of the Boxer situation. Mr. Wu lays stress on the fact that Li Hung Chang is an honored and trusted servant of the Empress Dowager, and a man belonging to the progressive element in his country. It was for his valuable work in years past in dealing with organizations like the Boxers that Li received some of the honors conferred upon him. Nothing official has been received by the minister from his government, which is maintaining complete silence in the present situation, nor has Mr. Wu made an attempt to communicate with the authorities in Peking.

St. Petersburg, June 21.—Vice Admiral Alexeeff from Port Arthur, reporting the capture of the Taku forts, says the bombardment fleet was commanded by the Russian captain, Dobrowolski, as senior officer present. The Russian losses were two lieutenants killed, one severely and one slightly wounded. The gunboat Gily was seriously damaged by a shell below the waterline, and must be docked for repairs. The gunboat Korog was made to leak in six places, and had her cabin destroyed. Besides the above Admiral Alexeeff says the French warship Lion, the British Algerine and the German gunboat Itis participated in the engagement.

New York, June 21.—The Chinese consul at Havana, according to the Havana correspondent of the World, says the Empress Dowager of China is responsible for the present trouble. He predicts that a new government will be set up under the leadership of Li Hung Chang and hints that he himself is under orders to await telegraphic notification of these changes. He says that everything will be arranged to the satisfaction of the powers.

San Francisco, June 21.—Mrs. A. F. Lowrie, a Presbyterian missionary who has been stationed at Pao Tien Fu for the last six years, arrived here on the Doric. She reports that on the night of May 10 many native children were murdered by the Boxers while fleeing from Pao Tien Fu toward Tien Tsin. This was about ten miles from Mrs. Lowrie's station, which was not disturbed.

WESTERN MEN FALL.

Lieut. Blanchard Dies of Wounds—Capt. A. C. McDonald Dangerously Wounded.

Ottawa, June 21.—The following cablegrams have been received by Lord Minto from Sir Alfred Miller:

Cape Town, June 21.—I regret to report that Lieut. H. G. Blanchard of the 2nd Mounted Infantry was killed at Roovalval June 19. (Signed) Miller.

Cape Town, June 21.—I regret to report the following casualties: Capt. A. C. Macdonnell, 2nd Mounted Rifles, dangerously wounded in the abdomen; Pte W. Frost, 2nd Mounted Rifles, dangerously wounded, since dead; Corp. H. H. Bains, 2nd Mounted Rifles, slightly wounded; Pte F. Greenall, 2nd Mounted Rifles, slightly wounded near Pretoria June 12. Lieut. Blanchard died of his wounds on June 15. Pte. G. W. Leonard, of the Canadian regiment, wounded at Zand River May 10, died of his wounds. Pte. J. McKelvey missing. 29 Canadian recruits of infantry. (Signed) Miller.

Lieut. H. G. Blanchard was formerly captain in the B.C. Garrison Artillery stationed at Victoria, B.C. He went to South Africa as lieutenant in a company, and succeeded to the command on the death of Capt. Aradid.

BOATING CATASTROPHE.

Jas. Kim, Mrs. Smith and Son, and Three Men Drowned in Lake Metapedia.

Cedar Hill, Que., June 21.—A boating catastrophe occurred here yesterday afternoon, resulting in the drowning of a fishing party consisting of James Kim, the well known fisherman of Quebec, ex-M.P.P. for Magalloway; Mrs. Smith, wife of Mr. R. Smith, manager of Messrs. King Bros., saw mill here; her son and three men named Jos. St. Pierre, Alfred Des Champlain and Jos. Fournier, all single, and aged about 20.

Rat Portage, June 21.—George McLeod, foreman of the Miner printing office, was drowned about 8 o'clock yesterday evening in a small bay on the northern limits of the town. He was in bathing with a number of young men and attempted to swim to a small steamer anchored a short distance from the shore. He had covered over half the distance when he apparently became tired and turned toward the shore, when he showed signs of distress and sank in about nine feet of water.

Calgary, N.W.T., June 21.—Alex. Turnbull, rancher, of Gleichen, was drowned in the Bow yesterday afternoon, near New Ferry. Search was made for the body, which was found last night. Deceased was widely known and esteemed.

KITCHENER GALLOPED AWAY

The Boers Attack a Train in Which the General Was Sleeping.

London, June 21.—The war office has received the following dispatch from Lord Roberts:

Pretoria, June 20.—This afternoon it is reported that Gen. Hunter had occupied Krugersdorp (west of Johannesburg), without opposition and that Gen. Methuen on June 19 routed a Boer force, which was opposing his entry into Heilbron in the Orange River Colony.

Baden-Powell left this city today on his return to Rustenburg. The country is quieting down in that direction. This satisfactory state of affairs will be materially assisted by the capture between here and Rustenburg, June 19, of two guns by Hutton's Mounted Infantry, from a body of the enemy under Commandant Dupplessa.

The railway and telegraph communication with Cape Town is now completely restored.

All is quiet here and at Johannesburg. The shops are open and the market is daily becoming more crowded and business-like.

According to a Cape Town dispatch of this date Gen. Kitchener himself had a narrow escape from capture in the engagement at Lousburg on June 14. He was sleeping in the repair train when the latter was attacked and many of the engineers captured.

Kitchener's sleeping car was at Kopp's station when the Boers under General De Wet suddenly opened a rifle fire at 3 a.m. Kitchener managed to reach his horse and galloped to Kopp's station, two miles distant. The Boers numbered 900 men with three guns. They burned the engine, which had just been rebuilt, and derailed the train.

The Niagara Synod.

Hamilton, June 21.—At the opening meeting of the synod of the diocese of Niagara today, Bishop Dumoulin presided. His lordship's annual address made reference to the situation in China, which is endangering the peace of the old world, and to the almost successful issue of the South African war. The bishop suggested the commemoration of the 25th anniversary of the synod by making a determined effort to place the general purpose funds on a safe and permanent basis. It was with pleasure he recorded the increase in general church finances of over \$5,000 ahead of last year. I was with regret he noted the decrease, that the clergy fund was reduced during the year. His lordship referred to the difference between the number of baptized and the number of communicants and said that he thought it was caused by the evil of Sunday bicycle riding.

Cause of Present Troubles in China.

Toronto, June 21.—Rev. Dr. Sutherland, general secretary of the Methodist Missionary Society, has a curious theory regarding the present uprising in China. In certain years the Chinese calendar is altered. According to an old established superstition the appearance of a new moon is accompanied by a change of dynasty, and this doubtless is a factor in the present trouble. In every five years this doubling of the month is said to occur twice. These regular periods, however, either two four-moons, or two six-moons. After the riots in 1895, said Dr. Sutherland, and a more capable man succeeded him, the new governor is still at the head of affairs in Peking, and is said to be quite able to maintain peace under ordinary circumstances.

Gov. McInnes Dismissed.

Ottawa, June 21.—Lieut. Governor McInnes, of British Columbia, has refused to resign and he was notified by the Dominion government today that he was dismissed.

Sir Henri Joly, minister of inland revenue, will be appointed to take his place.

AN OFFICIAL MESSAGE

FROM THE COMMANDER OF THE BRITISH CRUISER ENDYMION.

It is Believed That If the Legations at Peking Were Captured they Have Been Massacred.

London, June 20.—The admiralty office has received the following message from the officer commanding the British first class cruiser Endymion: "Liu Kun Tau, June 19.—The Taku forts opened fire at one in the morning of June 17 on the ships of the allied squadrons. After six hours' engagement the forts were silenced and occupied by the allied forces. Additional men for storming the forts were sent ashore from the ships the previous afternoon.

"The British ships up the river engaged the Algerine (gunboat), Fame (torpedo boat destroyer), and Whitting (torpedo boat destroyer). The two latter captured four Chinese torpedo boat destroyers. The casualties of the Algerine were slight. Those of the storming party and others are unknown.

"A Chinese second class cruiser, flying an admiral's flag, is detained outside Taku by the allied admiral.

"No information of Commander-in-chief Seymour's return to Tien Tsin has been received by the rear admiral up to 2 in the afternoon of June 17. I am sailing forthwith for Taku."

New York June 20.—A dispatch to the Tribune from London says: The Express correspondent says it is felt certain that the real explanation of the failure of Admiral Seymour's expedition was divided counsel among his motley force, only the American troops honestly co-operating with the British admiral.

A former English resident of Peking says: "If the legations have been taken every one has been massacred. Murder would be the object and motive of the attack. Nobody would be spared if the embassies were captured. The embassy enclosures would be commandeered from the great wall near by, and would be incapable of defence against the Chinese mobs. The Che Foo consul's report is not conclusive, but the situation is most alarming."

London, June 20.—Judging from the German official dispatches the American ships took no part in the bombardment of the Taku forts.

BRITISH CASUALTY REPORTS

Recent Shell Engagements. Hitherto Not Chronicled.—Boers Massing to Meet Ruddle.

London, June 20.—The casualties made public by the war office, including a long list of missing, show British losses in engagements hitherto not reported. In an attack on a reconstruction train at Lousburg, June 14, three were killed, five wounded and 90 captured. Lousburg is 40 miles north of Krugersdorp. This was the day of the Sand River attack, 80 miles distant. Another list shows nine wounded and 11 missing in an action at Vrededorp on June 7, no previous mention of which has been made.

The Daily Mail points out that it is quite possible the wires have again been cut in Lord Roberts' rear, as no dispatch later than June 16 has been received. The Boers are gathering in force in front of Gen. Buller's rear. Ficksburg. His forces stretch 40 miles. As some parts of the line are weakly held, the British fear the Boers may break through. The Boers there are commanded by De Villiers and Herman. Mr. Steyn is at Bethlehem, the temporary capital of the Free State.

The Bloemfontein correspondent of the Daily Mail, June 16, says that Lord Roberts is getting better for 30,000 men and is arranging transport for a part of his army, at least his plans are not to take effect immediately.

Volkskrant, Transvaal, June 20.—The town guard of Wakkersdorp have surrendered to the British.

Canadians in China.

Toronto, June 20.—There are several Canadian missionaries in Peking who will share the fate of the other Christians in that city. Two of them are Miss Green and Miss Sutherland, both of Toronto, representing the missionary alliance. Robert Jaffray, son of Mr. Robert Jaffray, of Toronto, is also in China representing the same organization, but at We Chien, which is not so dangerous a centre, while several other Canadians who represent the alliance are further inland.

The China inland mission has 43 Canadian representatives in China, few of them, however, are in what are believed to be the infected districts. The English and American missions predominate in the infected districts.

RAIN FALL IN INDIA

London, June 20.—The following dispatch has been received from the Viceroy of India, Lord Curzon of Kedleston: "The week's famine report shows a state of general expectancy, pending the advance of the monsoon, which has not yet appeared. Heavy rain has fallen in Burghur."

NEWS OF THE WEEK.

SATURDAY, JUNE 21.

Souths defeated Bonnavain at Lacrosse. The House of Lords passed the colonial Marriages Bill.

The Keeper of Exchequer is suffering from diphtheria at Fort Victoria, B.C.

Sentence on Jas. C. Herlihy, the drunk Vain Martin letter, has been suspended. A new Maritime government ministry building is recommended.

The largest steam barge ever built in Winnipeg, was launched yesterday.

Carberry's race programme was completed. Don Quixote won the free for all first.

Buff's colts and Elizabeth's five yearlings at 1100 were destroyed by fire.

The weekly crop report of the N. P. Ry. shows the grain is suffering badly for want of rain.

Gov. Sir Fred Hodgson was wounded during the Kinnisville riot. The investment by the railways is complete.

Dr. Koch, after numerous experiments, has discovered that the worst infected malarial districts can be improved.

FRIDAY, JUNE 20.

Princess Arcturion called for home. Sir John Lubbock, of Tottenham, is dead.

The British Columbia cabinet has been completed.

The Nationalist convention at Dublin has closed.

Yesterday was the hottest day of the year in Winnipeg.

Hon. Mr. Sifton was publicly entertained at Glasgow.

The Russian minister of foreign affairs, Count Muraviev, is dead.

Canada's timber exhibit at the Paris Exposition has been awarded first prize.

Wool—Manitoba 8 1/2 to 9c per pound delivered at Winnipeg.

Seneca rosin—24c to 26c per pound.

THE ICEMAN.

It is too bad that ice does not grow in summer, when it is most needed.—Ridgewood, N.Y. News.

London, June 21.—It may seem, the burning question of the hour in New York is not New York World.

In Chicago we can be weighed in the presence of the emperor. But the emperor is not unhappy. He may use his own scales. Kansas City Journal.

REPAY SENTENCE

Montreal June 21.—Jack Roach, a notorious crook, who was sentenced to be hanged up in the Canadian tank robbery, but who escaped, paid back in that connection, was sentenced to 25 years in St. Vincent de Paul penitentiary. He was now at some time ago of his first punishment named Roach in a bold manner in his story.

AMNESTY FOR FILIPINOS.

Washington, June 21.—Notice of amnesty has been issued by Gen. Arthur yesterday at Manila. It grants complete immunity to all persons now in insurrection who will within 90 days formally renounce all connection with insurrection and acknowledge the sovereignty of the United States over the Philippine Islands.

EXHIBED ON TRAIN

Winnipeg, June 21.—The body of a man named William Calder was taken from the Great Northern train yesterday afternoon, and now lies at Thompson's undertaking room. The unfortunate man was from Williston, N.D., and died on the train while coming to this city. Deceased had been ill for some time in North Dakota.

ROSCOE E. LAW,
EDITOR AND MANAGER

THURSDAY, JUNE 28 1900.

"Let us have faith that right makes might; and in that faith let us dare to do our duty as we understand it."

B. C. POLITICS.

The overwhelming defeat of Joseph Martin in British Columbia means the victory of the capitalists over Mr. Martin's radical platform. It also means the victory of Liberals and Conservatives alike opposed to Mr. Martin. An effort was made to divide the province on straight party lines, but as the results show the division was really Martin and anti-Martin.

Above all was the feeling that Lieut. Gov. McInnes had exceeded his duty in dismissing the former ministry, thereby antagonizing those in favor of constitutional forms. Mr. McInnes so compromised himself that the defeat of the Martin government necessitated his resignation or dismissal, and as he refused to resign no other course was open to the federal powers but to dismiss him.

The appointment of Sir Henri Joly as his successor appears to give almost universal satisfaction since there is no reason to believe that he has any predilections for either party.

Starting in the east Mr. Martin has gradually drifted westward, creating trouble wherever he has appeared. It only remains for him to step off into the Pacific and sink into oblivion. Yet it were false to say that he has been of no service to his country. Many of the measures he has advocated have been good, but too advanced for the times. He has also aroused the people of the west to a sense of their power. The continual stirring of the political pot has prevented the people sinking into a torpid indifference; in fact has been an invaluable means of educating the masses in many public questions.

Such men as Mr. Martin are for obvious reasons, never popular with the powers that be, but they fulfil an important function in the political world nevertheless.

THE OUTLOOK.

Old Sol has been very benignant ever since spring opened, but his summer face was particularly bright during the latter part of last week. The south wind became

more than balmy and a breeze as from a blast furnace searched every nook and cranny to drive away any hint of coolness that might linger in the homes of our hospitable people. The residents began some time ago by wishing for the rain-laden cloud, then they longed for it and finally, as the grain grew yellow day by day many began to pray for it. The thermometer lingered lovingly around the hundred mark while the inhabitants lingered around the ice-pitcher, partaking many a time and oft of the contents thereof.

With sober countenances the farmers told of almost total failures of crops and expressed themselves as satisfied if they could obtain sufficient for seed and grist.

At one at least of the churches in town prayers were made on Sunday last for refreshing showers and, by what the seafarers will consider a strange coincidence, the Christian as an answer to prayer, about midnight a heavy thunder-storm broke over this district, cooling the atmosphere and probably adding to the value of the crops by thousands of dollars. Much of the grain is too far forward to be materially benefited, but much also will be productive. In any case Qu'Appelle district is better off than a great portion of Manitoba and should be thankful therefore. Total ruin, financially, is staring many a settler in the face in the west and the close call this district has had will show how closely the interests of business men are bound up with those of the farmer.

A JONAH.

From Conservative sources comes the report that Hon. J. L. Tarte will shortly receive the Lieut. Gov. ernship of Quebec. Making due allowance for the source of the story, it would yet seem a not improbable arrangement. We have before stated that though a means of strength in Quebec, Mr. Tarte is a weakness to the party in other provinces, and his rash and almost disloyal utterances in France recently have not improved either his or his party's position.

That party are surely aware of this, hence a reorganization of the cabinet with the present Minister of Public works sidetracked should not be a surprise to the reading public.

No one denies his ability or his able management of the department he controls, but when he boasts of his French, not French-Canadian, sympathies and leanings, while holding an office in the Canadian government he injures himself and the party on to which like a barnacle he has fastened himself, apparently for selfish motives.

Unless some such shuffle as mentioned above is resorted to before the next election the Liberals may find him a Jonah who will sink the political ship.

At no time in the history of Canada more than the present have we required lead men and true at our country's helm, and among both parties many will be found who feel that Mr. Tarte is not all they would wish.

Edgeley Echoes.

From our own correspondent.]

The stonework of the new school building has been completed, with the exception of the finishing touches which will be added in a week or two. The work is well done and does credit to the contractors, Messrs. Cantelon and Hunter. The carpenters will be on hand soon to rush the building along.

Some of our young people took a fine picnic and had a good time, we believe. One of our young men met with an accident to his outfit, but we are pleased to say, escaped bodily damage.

T. J. W. has visited Springfield last Saturday on business.

Miss Ida Craig visited this district last week.

Miss Howett visited Mrs. Mat-tick of Vernon last Saturday and Sunday.

The combined Public School and Sabbath School picnic of this district will take place on Thursday, July 5th, commencing at 1 p. m. The picnic will be held on the same ground as last—west of the school-house. There is no admission fee, but bring your basket and your best girl with you. As formerly, a collection will be taken up to expend in sports. A booth will form a principal feature, as there one can satisfy the inner man with ice-cream, lemonade, strawberries, etc. Swings will be provided and a game of football is expected to be played. As this will be the picnic of the season, don't fail to attend and have a good time.

The closing examination of the public school will be held on Friday, June 29th, commencing at 10 a. m. Examinations will be carried on much the same as formerly. It is hoped that many parents will attend the school that day as all are heartily welcome.

Mr. Linnell, of Summerbury, is now visiting Mr. and Mrs. James Fair.

The following visited our settlement last week: Mr. and Mrs. Seymour, of Springbrook, Mr. Nichol, of Springbrook, Mr. and Mrs. Webster, of Wide Awake, and Miss Ella Craig, of Qu'Appelle Stn.

Miss Dottie Fair has returned to her home after an extended visit to Summerbury.

The much needed rain came on Sunday night and was much appreciated by all. Though we had not a sufficient downfall, yet we are sincerely thankful for what came; we are also anxiously expecting more in the near future.

The Peary Relief Expedition.

The Peary Arctic steamer "Windward" was ready to come out of the dry dock on June 9, at St. John's, Newfoundland, the repairs which have been in progress for several months having been fully completed. It will soon leave Sydney in command of Capt. Samuel W. Bartlett, to take on coal and supplies for the voyage to the north. It was hoped that the "Windward" could be newly engined, but it was found that the builders could not take up the contract. A new shaft and propeller were put in and the old engines were thoroughly overhauled and put in the best possible order, so that her speed will be increased by at least a knot and a half. She will then be as fast as the "Kite" of the expedition of '91-2 and 1885. The hull has been thoroughly rebuilt, and the "Windward" is now in far better condition than she has been for years. The "Windward" will this year sail as an American ship, Congress having passed a bill. The expedition will sail from Sydney about the 1st of July and go to Etah, North Greenland, after calling at Disko. At Etah, Lieut. Peary's winter quarters, instructions will probably be found, and if not, they will be waited for. The "Windward" will carry coal, lumber, arms, provisions, scientific instruments, etc. If Lieut. Peary has succeeded in carrying out his plans, that is to say, if he has discovered the North Pole, he will return with the ship. If not, the supplies will be landed. It is possible that the "Windward" will bring back the Stern party, which was landed near Cape Sabine by the "Diana" in August last—Scientific American.

Springbrook.

From our own correspondent.

Mr. and Mrs. F. Seymour visited Edgeley on Sunday.

Rev. Mr. Farrer preached an eloquent sermon here on Sunday.

The idea of the school trustees assessing the property and then sitting as a Court of Revision is contrary to the opinion held by a great number.

A prairie fire got away on section 11 and did considerable damage by burning prairie hay and destroying some good bluffs.

Mr. Thos. Grigg lost a fine cow last week.

Breaking is about finished in this district, a considerable area being broken, and people are now eagerly looking for the much needed rain. Some of the crops are now past ripening.

Mr. Grigg now has men working at a large stone stable, which when finished will be a fine looking structure.

Territorial Tips.

An exchange says:—Our new reporter was requested to make a paragraph on the state of the market. Here is the production: "Young men unsteady; girls lively, willing and in demand; papas firm but declining; mammas unsettled but waiting for higher bids; coffee considerably mixed, fresh and slippery; wheat a grain better than barley; eggs quiet but expected to open out shortly; whiskey is still going down; onions strong and rising; breadstuffs heavy; boots and shoes, those in the market are sold and are constantly going up and down; hats and caps, not as high as last year, except to-day which is stationary; tobacco is very low and has a downward tendency; silver close, but not close enough to get a hold of; cheese lively."

An accident of a remarkable nature is reported from Dunmore. It seems that there is a quantity of coal lying scattered over the ground at that point, having been left there when the yard was used for transferring the coal from the Galt line to the C. P. R., and some of the settlers were in the habit of hauling it away. Last week J. R. D. constable of Medicine Hat, drove over to the junction for the purpose of getting a load. He drove his team up to the pile and then he did up his wagon. It appears however that the coal had been burning under the surface for some time, and the loaded wagon broke through the crust into the fire beneath. Both horses were so badly burned before they could be extricated that they had to be killed.—Standard, Regina.

The Indian department is in receipt of a number of reports for the month of May from the reserves under its control. From Tule-Wood Hills comes a report that the crops were sown on early spring before or during the summer flow and are doing well, although in some places they are in need of rain. From Fife Hills agency comes a report of mild weather, soft water, heavy mists, the crop prospects excellent. The cattle were brought up on the 5th and found to be in first class condition. The Qu'Appelle agency controllers for themselves and on those 407 acres at Wheat, 152 acres of oats and broad beans, etc., to the extent of 300 acres have been sown this season, making a total of 312 acres under of 112 acres more than last year. The weather has been very dry—V. News.

Two carloads of settlers arrived Saturday from Nebraska and left for Lacombe with eight carloads of stock and settlers' effects. Before striking the C. P. R. at North Portal, these people travelled 700 miles by wagons, being unable to secure a fair rate from any of the American lines.

The settlers of St. Joseph's Colony, near Balgonie, on Thursday last celebrated the feast of Corpus Christi. It is said that the gathering was the largest that was ever held there for a religious purpose. They were rewarded in the evening by heavy showers of rain, which spread over the whole district, making the church the centre.

Our Washington Letter.

The action of the President in sending troops to China is not entirely comprehensible. The orders issued to Col. Liscum of the Ninth Regiment, which is now on the way from Manila to Taku, are to proceed from Taku to Peking to the relief of the American minister, and if opposed, to fight his way. On arriving he is to place himself under the orders of the minister. It is, of course, possible that this is the full extent and intent of the movement but the prevailing impression here is that other regiments have been ordered to follow the ninth and that the United States has objects far in advance of a mere rescue party. Except Russia and Japan, the United States has more soldiers within striking distance of Peking than any other power in the world, and has a larger fleet in those waters than any other country except Japan. It has long been expected that a Russian coup of some sort was breeding in China, and it was feared that that country was getting ready to subvert the Chinese dynasty. Over three months ago, rumors to this effect were in vogue here and it was said that the United States had made arrangements to interfere if necessary, on the ground that should Russia obtain control in China, the open door treaties recently negotiated by Secretary May would fall to the ground just as the treaties of the Hawaiian Islands fell when they were annexed to the United States. It is still believed in diplomatic circles here that Russia is behind the Boxer movement, which, however, has probably outrun her expectations. It is believed that as soon as the "Colossus" saw that Great Britain was so deeply involved in South Africa, she began to plot in China. It took time, however, to bring things to a crisis and the actual rebellion broke out only at the moment when the Boer cause seemed about to come to an end. The United States naturally makes common cause with Great Britain against the Russian aspiration in China, though, of course, the fact that action is necessary at this moment is most embarrassing to McKinley, in view of the approaching election. Any action of his, no

matter what it may be, will be worked up as party capital by the Democrats and there will be little chance to justify or explain it. Hence, it is reasonably certain that the administration will move slowly and will do just as little as it possibly can without risking the loss of American lives and American interests. But in view of all the Boer war has cost in South Africa, and all it is likely to cost in China, the question is somewhat bitterly asked here whether Great Britain does not think that it has paid too dearly for its whistle.

A Wonderful Organization.

Very few people realize the magnitude and scope of the Sunday school work of North America. Through its various organizations, over thirteen and a half millions of people are reached with the word of God. The International convention, whose field covers the United States, Canada, and Mexico, is the most comprehensive religious organization in the world, including as it does, all denominations, who work harmoniously together to save the children of the land. This association also has a worker in Japan. The work in the International Convention is carried on by two great committees, one the International Lesson Committee, which selects the Sunday school lessons for the whole world; and the International Executive Committee (of which B. E. Jacobs, Atwood Bld., Chicago, Ill., is chairman) which has in charge the convention and field work and all other general work. All but six States, Territories and provinces are now organized into State or provincial Associations, having in charge the Sunday school work of their own state or province. Many states now have every county organized. The township organization is the one that reaches the individual schools, and comes in touch with the workers in these schools. Each township, county, state or province holds one or more conventions annually, aggregating many thousands in the year. The Sunday school work, through the individual schools and the various organizations, is doing more for the cause of righteousness and good citizenship in our land than all other agencies combined.

A new process for the extraction of rubber from the rubber tree consists of cutting up the bark and roots and soaking in dilute sulphuric acid. This decomposes the woody portions without affecting the India rubber. In this way the rubber and the bark and roots are separated.

War Summary.

By blowing up the Kormati Point railway bridge, Strathcona's Horse successfully battled up the Boers, cutting off all the enemy's communications with the sea. D. J. Villier's command north of Orange river, in Cape Colony, has surrendered to Sir Chas. Warren. A

PEKIN IS STILL SILENT

STRENGTH OF BOXERS UNDER-ESTIMATED BY SEYMOUR.

At Tien-Tsin 4,000 Men of the Allied Force Maintain a Steady Defence—Chinese Have Many Guns.

London, June 23.—The silence at Peking continues unbroken. Four thousand men of the allied powers were having a sharp defensive fight at Tien Tsin Tuesday and Wednesday, with a prospect of being reinforced Thursday. This is the situation in China as set forth in the British government dispatches.

"Eight hundred Americans are taking part in the fighting at Tien Tsin," says the Shanghai correspondent of the Daily Express, cabling last evening, "and they apparently form a part of the supplementary force, arriving with the Germans and the British after the conflict started. It is impossible to estimate the number of the Chinese there, but they had a surprising number of guns." This information appears to have been brought by the United States gunboat Nashville to Chee Foo and telegraphed there to Shanghai.

The Chinese are deserting Shanghai in large numbers, and going into the interior. Reports from native sources continue to reach Shanghai of anarchy in Peking. According to statements the streets are filled day and night with Boxers, who are wholly beyond the control of the Chinese troops, and who are working themselves up to a frenzy and clamoring for the death of all foreigners. The English consulate at Shanghai is said to have received from influential natives reports of a tragedy in the palace at Peking, though precisely what is not defined. The consulate thinks that Admiral Seymour, commander of the international relief column, was misled by information from Peking, and, consequently, under-estimated the difficulties in his way, and the Chinese power of resistance with Maxim guns and Mausers.

The consuls at Shanghai still believe the foreign missionaries at Peking safe, although Japanese reports received at Shanghai allege that up to June 15, 100 foreigners had been killed in Peking. The Daily Express says: "We understand that Mr. R. T. Tower, secretary of the British embassy in Washington, is to succeed Sir Claude Macdonald at Peking, and that the reason for Sir Claude's recall is the break down of health."

A dispatch from Vienna says: "Li Hong Chang has wired the various Chinese legations in Europe directing them to inform the governments to which they are accredited that he is called to Peking by the empress to act as intermediary between China and the powers and negotiate a settlement of the points at issue, and begs the powers to facilitate his mission by ceasing to send troops to China."

Hong Kong, June 23.—Li Hong Chang, who was interviewed in Canton yesterday, said he would leave for Peking on June 27, in obedience to an order from the empress to suppress the Boxers and make peace with the powers. His remedy for the situation is to decapitate the leaders of the Boxers and send their ignorant followers home and to make peace with the powers.

STEYN'S FORCE CUT OFF.

Roberts' Attention Will Be Directed to Drawing the Net Around Free States.

London, June 24.—President Steyn's force in the Orange River colony is for the time being drawing most of the attention of Lord Roberts, rather to the neglect of Commandant General Louis Botha and President Kruger.

The severance between the Transvaal and the Orange River Colony was completed yesterday, as Lord Roberts said it would be on the arrival of Gen. Buller's advance under Lord Dundonald at Standerton. The wide net around the 6,000 or 8,000 men under Gen. Steyn will now contract. Active maneuvering and brisk fighting are likely to take place because until all resistance south of the Vaal is at an end, the British line of communication will not be safe.

President Kruger's sons, who surrendered to Gen. Baden-Powell, are back on their farms working peacefully. Gen. Baden-Powell took 100 men from Mafeking, and he made on the last section of the ride to Pretoria with only 35. Lord Roberts met him on the outskirts of the town and escorted him to the presidency. Gen. De Wet's farm houses have been burned by the British.

Kaatsbosch, June 23.—Gen. Dundonald, with the third cavalry, occupied Standerton today without opposition. The burghers left yesterday, after having blown up the railroad bridge and doing damage. The infantry marched 25 miles today and camped at Kaatsbosch Spruit tonight.

REV. BARTLETT DROWNED.

Chicago, June 23.—A special to the Record from Sonoma, Cal., says that the Rev. F. Breitwaite Bartlett, rector of the Episcopal church of St. Mary the Virgin, of San Francisco, was drowned yesterday when swimming in a creek near Agua Caliente.

HOT WEATHER CONTINUES.

Another Record-Breaking Day for Heat—Mercury Near the 100 Mark.

Winnipeg, June 23.—A few more days of the present torrid conditions and some startling reforms in the dress and habits of citizens will go into effect. The absolute disregard for appearances in the effort to keep cool will be one of the most astonishing reforms. High heels will certainly have to go out of fashion as they not only irritate the wearer and whose neck they cling clamorously, but they work on the demoralizing of starch. The matter of footwear is occupying thoughts very seriously. Thin soled shoes allow the feet of the unfortunate to come in too close contact with the burning sidewalks, thick shoes are unbearable, no shoes would not relieve the trouble and it still would require too much exertion.

A gentleman well known for his veracity says that his thermometer registered yesterday 125 degrees in the shade. He admitted, however, that it was in the shade of his room, which faced the sun, and had the full benefit of four walls. The thermometer at noon yesterday gave the information that Winnipeggers were living in a temperature of 98 in the shade, but later in the afternoon it went to 100 degrees above zero.

DOMINION HOUSE.

Ottawa, June 23.—Sir Wilfrid Laurier made a statement in connection with Mr. Frank Burnett's Yukon mining claim charges against the minister of interior, fathered in the house by Sir Chas. Hibbert Tupper. The premier also announced that morning sessions would commence Monday. The supplementary bill will be down Monday. The Elevator bill passed practically as printed to clause 37 in committee of the senate.

Sir Wilfrid Laurier said that there would be no further legislation on any consequence except a conciliation bill. He would see about the railway subsidies next week. He anticipated prorogation week after next.

Mr. Foster wanted an arrangement to adjourn the house every night at 12 o'clock, but the premier did not want to take part in bargain.

Sir Wilfrid announced the appointment of Mr. Bernier to the cabinet, and Sir Henri Joly to the lieutenant-governorship of British Columbia, in place of Mr. McInnes, removed.

ARGONAUTS COMING.

Crack Toronto Oarsmen Will Come West for an Exhibition Regatta.

Winnipeg, June 23.—Arrangements are now being made for the holding in Winnipeg of the largest amateur rowing regatta ever held in Canada. A telegram was received in the city last night from Capt. G. F. Galt, of Winnipeg Rowing club, who is in Toronto. It announces that he has arranged with the crack Argonaut club to send senior and junior eights, senior and junior fours, senior single, and senior doubles to take part in the event. It is proposed to hold this carnival of aquatic sport on Saturday, the 28th July, which is the final day of the exhibition, and on Monday of the following week. Other clubs will also be asked to send crews, including several of the crack clubs across the line, at Duluth and St. Paul, and also the James Bay boys of Victoria, who made such a good showing on their previous visit.

Salaries of Cuban Professors.

Havana, June 23.—The postal transients have rather recently changed the scandal existing in the university, which has been the milking ground for some of the best men in Cuba, who, as under-professors receive \$24,000 a year each. There were 72 of these professors and 24 assistants, some of them having no classes at all, and others only one or two students. Many of the professors drew other government salaries. When this was called to Gen. Wedd's attention, he immediately inaugurated reforms which resulted in cutting down the list to 46, including assistants which seems enough, considering that there were only 437 students.

Wm. Hutton Injured at Le Roi.

Roseland June 2.—While Wm. Hutton, a carman at the Le Roi mine, was riding a car loaded with rock between the track to the edge of the dump about 9:30 this evening, the car struck some obstacle and jumped over the end of the track and between the dumps. Hutton was flung over the dump ahead of the car. The ton of rock it contained must have rolled upon him and knocked him insensible. The car rolled down over him, and when picked up he was terribly mutilated. He has suffered internal injuries, which are expected to prove fatal.

Train Wreck at Grand Falls.

St. John, N.B., June 23.—There was a very serious accident on the C.P.R. at Grand Falls this morning. An engine was derailed just at the bridge and crashed through, taking seven freight cars into the water. Passenger cars followed, but piled up on top of the wreck, and thus were not submerged. The train crew escaped in jury, but some passengers, of whom there were only a few, suffered.

TIENTSIN BOMBARDED

U. S. CONSULATE AND FOREIGN CONCESSIONS DESTROYED.

Kang Yu Yei, the Reformer, States Russia is at the Bottom of the Troubles.

Washington, June 23.—Acting Secretary of the Navy Hackett received a cable message this afternoon from Admiral Kempf, dated Che Foo, June 21, saying that Tien Tsin is being bombarded, and that much of the American consulate, as well as much of the foreign concessions, are being destroyed. A relief party is en route to Tien Tsin, including 130 American marines, under Major Weller.

London, June 23.—The United States gunboat Monocacy was two miles up the Pei-Ho river when the international fleet began the bombardment of the Taku forts. According to the Shanghai correspondent of the Daily Express she was shot through the bows. The correspondent says that the Chinese riflemen on both banks of the river attacked her, but unsuccessfully.

The scuttling of authentic news with reference to the situation continues. Admiral Kempf's dispatch to the United States navy department, announcing that Tien Tsin is being bombarded, was prominently used by the London papers, and commented upon as indicating a change for the worse. The British admiralty does not believe the report of the death of Admiral Seymour, commander of the international relief column; and semi-official assurances are given that there seems to be not the slightest evidence to back up such a report. It is pointed out that Admiral Seymour had sufficient supplies to enable him to get to Peking or to get back.

The Singapore correspondent of the Daily Express, telegraphing yesterday, says: "Kang Yu Yei, the reformer, asserts that Russian agents precipitated, if they did not entirely organize, the present disturbances for purely Russian purposes." A dispatch to the Daily Telegraph from Shanghai says that the missionaries from Tsang Chou have safely arrived at Wei Hai Wei.

The stoppage of trade has thrown 10,000 coolies out of work at Shanghai. All the English ladies at Tien Tsin left there Saturday by train for Taku. Shanghai wires that they had some exciting experiences and would not have gotten through except for the assistance of the Chinese troops.

Shanghai, June 23.—The British torpedo boat destroyer Whiting, at the Che Foo, reports that nothing has been heard from Admiral Seymour's force for six days. The French consul wires that the British mission at Tsan Chow has been looted and the missionaries conveyed to an unknown place by a Chinese general.

Shanghai, June 23.—The British torpedo boat destroyer Whiting, at the Che Foo, reports that nothing has been heard from Admiral Seymour's force for six days.

The French consul wires that the British mission at Tsan Chow has been looted and the missionaries conveyed to an unknown place by a Chinese general.

BULLER STILL ADVANCING.

Paardekop Occupied and 300 Boers Surrendered. Transvaal Republic in Financial Straits.

London, June 22.—Gen. Buller's advance into Transvaal is still unchecked. Paarde Kop was occupied and 300 burghers surrendered. Boers continue to announce successes east of Pretoria, but the republics are in sore straits for money. It is believed Buller will cut communications between President Steyn and Gen. De Wet.

Paarde Kop, June 22.—The British column arrived here yesterday. The presence of the army has induced the burghers to lay down their arms. The bridge and culverts, but the Sandpsuit bridge is little damaged.

Volskrust, June 22.—Gen. Buller has arrived at Sand Spruit station and camped two miles farther on the eastern side of the railway. Many Boers met Gen. Buller on the road and surrendered their arms and horses.

Dispatches from Lorenzo Marques reiterated the statements that Secretary of State Reitz sailed for Europe recently on a Dutch warship.

Struck by Trolley Cars.

Chicago, June 22.—A trolley car running at high speed tonight struck a farmer's wagon carrying 14 persons at Ashland and Wabash avenues. Seven of the occupants of the wagon were injured, two fatally. The injured are: Frank Deering, injured internally may die; Frank Maasch, injured internally may die; Mary Graalagh, Telle Cruckly, Lena Zindrack and Michael Pysbia. Witnesses asserted that the collision was unavoidable.

Count Muraviev Dead.

St. Petersburg, June 23.—The Russian minister of foreign affairs, Count Muraviev, died suddenly this morning.

Count Muraviev had just finished his morning cup of coffee and had ordered his lunch when he fell in an apoplectic fit and expired.

Frank Hadzskis Drowned.

Winnipeg, June 23.—About 8 o'clock last evening Frank Hadzskis, son of Mr. G. H. Hadzskis, city tax collector, was drowned in the Red river, about a mile above Norwood bridge.

GRAIN BILL AMENDMENT.

Clause Dealing With Grain Out of Condition Considered by House.

Ottawa, June 22.—The bill respecting the grain trade in the inspection districts of Manitoba was up in the senate. On the clause regarding the keeping of the latest market quotations at Winnipeg, Senator Perley urged that that information would be of no use in Winnipeg, they wanted it all over the country. The bill he said, had been passed in the interests of Winnipeg grain men.

On motion to go into supply, Mr. Richardson moved that clause 16 of the contract between Her Majesty and the Canadian Pacific railway company ratified by the parliament of Canada on the 15th of February, 1881, provides as follows:

"The Canadian Pacific railway had all stations and station grounds, workshops, buildings, yards and other property, rolling stock and appurtenances required and use for the construction and working thereof and the capital stock of the company shall be forever free from taxation by the Dominion or by any province hereafter established or by any municipal corporation therein, and the lands of the company in the Northwest Territories until they are either sold or occupied, shall also be free from such taxation for 20 years after the grant thereof from the crown."

"That in answer to an interpellation in parliament on the 12th day of February, 1900, as to the date of the termination of said period of exemption from taxation, it was stated on behalf of the government that this is a matter of legal opinion, which, if disputed, can only be settled by judicial decision."

"That the progress in the Northwest is enormously handicapped by the exemption from taxation of so vast a quantity of land as has been set apart for the company and would be seriously paralyzed should the tax exemption be indefinitely continued."

"That it appears from the debates which occurred when the said contract was before parliament and from the wording of the act itself, that the exemption was intended to cover a period of not more than 20 years from the date of the passing of said act, and that it was so understood by the railway company, which, on the conclusion of the bargain, raised \$25,000,000 on the security of the said land grant."

"That for the foregoing reasons, in the opinion of this house, the lands covered by the C.P.R. company will become subject to taxation on Feb. 15, 1901, and that all such lands should be patented to the said railway company on that date, so that they may become subject to taxation as soon as the exemption contemplated by parliament at the passing of the act has expired."

Sir Wilfrid Laurier suggested a reference of the question to the courts by municipalities, but said he could not accept the wording of the resolution as presented.

Sir Charles Tupper held that the proposal was absolutely impracticable.

Mr. Oliver seconded and supported the resolution. Mr. Rutherford sympathized with the resolution but he would change that part which said that the exemptions ceased in February on a certain date, he would vote for it, but to do so in its present shape would be self contradiction.

Mr. Pattee said it was the duty of parliament to stand by the rights of the people.

The house divided on the resolution, which was lost. Only six voted for it. They were Graham, Pettit, Oliver, Pattee, Rogers and Richardson. Six for and 99 against.

CABINET IS COMPLETED.

Messrs. Wells, McBride and Prentice Added to the B.C. Cabinet.

Victoria, June 22.—The new British Columbia cabinet has been completed. Messrs. Wells, Prentice and McBride were today added to those already sworn in as members, and were sworn in late this afternoon. Wells will be minister of mines; McBride, commissioner of lands and works; and Prentice, provincial secretary and minister of education.

The political sensation of yesterday was that the government has declined to sign the writ for the elections in South Victoria and in Victoria City, which must take place before the minister of finance and the attorney-general can take their seats in the legislature. Only two weeks in arrears between the present time and the opening of the house, and it is therefore evident that no time is to be lost if the two ministers referred to are to have seats in the legislature at the opening. His honor, however, it is understood, absolutely declines to sign the writ. In this case he has a number of defenders among those conversant with procedure, it being asserted that while he may conduct the mere routine work of his office, it would be indecorous for him to authorize a bye election in view of his dismissal by the Ottawa authorities.

"INTERNATIONAL" LIMITED.

Montreal, June 22.—The Grand Trunk railway has decided to put on a number of additional fast trains. The first will be known as the "International Limited," from Portland to Chicago, Toronto, and Montreal.

WINNES ASKED TO RESIGN.

If His Resignation Is Not forthcoming He Will Be Dismissed.

Ottawa, June 20.—At a meeting of the cabinet yesterday morning the position of the lieutenant-governor of British Columbia was up for consideration. Lieutenant Governor McInnes has had four governments in two years. Two of them were dismissed, one with a majority at its back and the other refused to permit the legislature to meet to see where it stood. A solid vote of the legislature was recorded against the selection of Joseph Martin as premier, yet Governor McInnes refused to obey this and called upon him to form an administration and afterwards dissolved the legislature to permit Mr. Martin appealing to the province. The result was that Mr. Martin met with an overwhelming defeat and now 25 of those who were elected out of a house of 38 members have passed a resolution asking for the dismissal of the lieutenant-governor. What is peculiar about this is that three ministers whom McInnes has just sworn in and whose bounded duty ought to have been in that case when they did accept office to have defended their governor, have instead signed a resolution demanding his removal. These ministers are Dunsen, Elberts and Turner. The result was that at yesterday's cabinet meeting it was decided to ask McInnes to resign. If he does not then he will be dismissed from office.

It is understood that Sir Henri Joly will be the next governor of British Columbia.

Victoria, B.C., June 20.—Lieutenant-Governor McInnes has been asked to resign by Sir Wilfrid Laurier, and has refused, on the ground that no Conservative caucus is competent to advise the federal authorities. It is thought here that he will now be dismissed, and Sir Henri Joly, of Quebec, appointed in his stead, Senator Templeton being taken into the cabinet in Sir Henri's place.

Vancouver, B.C., June 20.—The convention of members of the legislature who are opposed to the late Martin administration closed this afternoon. Practically beyond passing a resolution condemning Lieutenant-Governor McInnes and another for increasing restrictions on Chinese and Japanese immigration, little was accomplished by the two day's sessions. It was decided to support the new Dunsen government during the next session in passing estimates and any necessary legislation of a particular character. Then there is to be a reconstruction of the cabinet so as to meet the views of all parts of the province, the present personnel not being considered favorably by many of the members.

HOUSE OF COMMONS.

Ottawa, June 26.—In the house yesterday, Sir Wilfrid Laurier, in reply to Sir Charles Tupper, said that he would make an announcement in a few days in regard to what the government would do respecting the Indian famine fund.

Sir Charles Tupper, on going into supply, brought up the question of representation for the Yukon in the Dominion parliament. He read a resolution of the people of Yukon, asking for representation in the commons by two members. He thought that the government should arrange at once for representation on the census taken by the mounted police. In conclusion, he moved that this house is of opinion that immediate provision should be made for representation in the Yukon Territory in the parliament of Canada.

Premier Laurier said that before the 1st of July the government intended bringing into force an act passed last session giving representation to the people of the Yukon in the Yukon council. This bill made provision for the elected members to sit in the council. Whenever the census was taken next year, probably in January, but not later than April, arrangements would be made for representation in the commons.

After Mr. Foster had spoken on the Yukon representation, Mr. Pattee, of Winnipeg, followed, putting forward the claims of that city for more representation.

The house divided on the amendment, which was lost by 46 for and 72 against, a majority of 26 for the government.

Must Camp in Canada.

Washington June 20.—Immigration Inspector W. D. Morse yesterday notified the commissioner of immigration that he had interviewed the superintendent of construction of McKee, Mann & Co., contractors for building the Manitoba and Southern Railway in Canada and the Minnesota and Manitoba railway in the United States relative to the employment of Canadian laborers in the United States. At present operations are in progress between Sprague station and the Minnesota border line. About 100 laborers are employed, 75 per cent being reported as employees from United States and the balance from Canada. The superintendent has been instructed that he could work his entire gang on the side of the line as long as their camp is in Canada, but as soon as it is necessary to remove the camp to the United States he will be obliged to discharge his Canadian laborers and employ only Americans.
